

isLucid for Microsoft Teams

Empower hybrid workers with collaborative apps in Teams

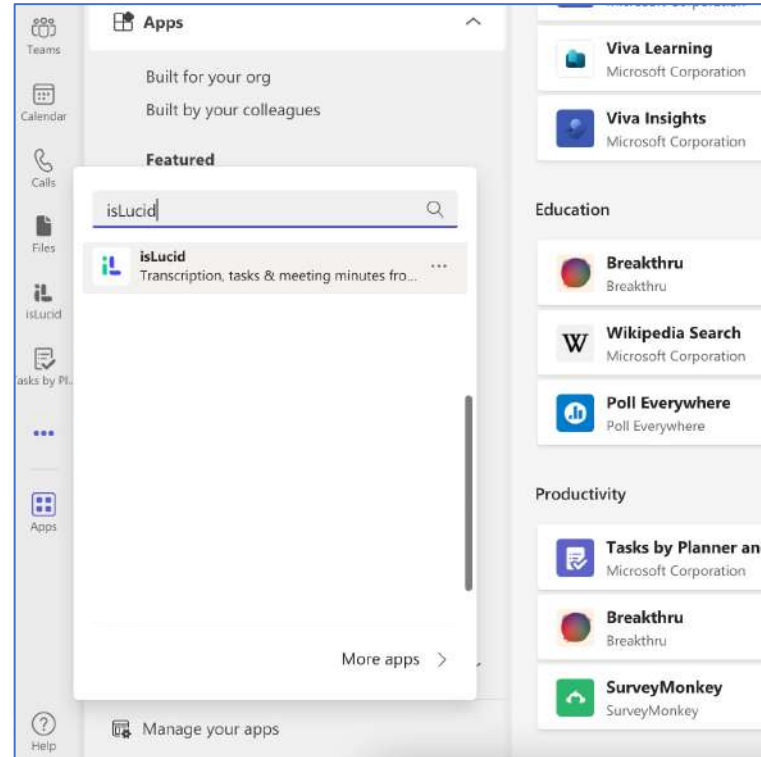

Get the [isLucid](#) app for Teams

Hybrid work is here to stay. However, keeping a distributed workforce aligned and up to date can be a challenge that requires workers to constantly switch between applications and search for the latest information. With Microsoft Teams, you can equip your team with the right tools for remote collaboration.

Create a collaborative sales, development or HR environment in Microsoft Teams

- Stay organized with teams and channels
- Schedule and conduct team meetings
- Share and access files quickly
- Add apps to bring tools into Teams
